

Appl. No. 10/654,990  
Amendment dated: May 10, 2006  
Reply to OA of: January 10, 2006

This listing of claims will replace all prior versions and listings of claims in the application.

**Listing of Claims:**

1(previously presented). A detachable restoration tooth, comprising:  
a bottom provided with a cavity extending into the interior of said detachable restoration tooth and to accommodate an outer crown used to be securely fitted on or freely detached from an inner crown fitted over a mended abutment of a restored tooth, an outer surface having a boundary edge in relation to said bottom; and  
a top having two boundary edges in relation to the outer surface whereby said top is provided with two connection portions for being attached to the top of a tooth adjoining the restored tooth, wherein said connection portions extend horizontally along the entire side of the restoration tooth to which they extend from and each extending from one of said two boundary edges.

Claims 2-3(canceled).

4(original). A detachable restoration tooth, as recited in claim 1, wherein said connection portions are provided with a lateral connection portion.

5(previously presented). A detachable restoration tooth, comprising:  
a bottom provided in one side thereof with a cavity extending into the interior of said detachable restoration tooth and to accommodate an outer crown used to be securely fitted on or freely detached from an inner crown fitted over a mended abutment of a restored tooth, and in other side thereof with a protruded portion;  
an outer surface having a boundary edge in relation to said bottom; and  
a top having two boundary edges in relation to the outer surface whereby said top is provided with two connection portions for being attached to the top of a tooth
